SLEEP CHALLENGES IN CHILDREN

SEF areas

We ensure that staff understand how neurodiverse needs can impact a child's behaviour and ability to learn.

We are confident that staff understand the challenges that can exist at home for neurodiverse children that impact their ability to engage well in school. e.g. the impact of reduced sleep and have strategies in place to support this.

Offer details

A child who does not sleep well can affect the whole family. Disabled children, and those with certain medical conditions, are more likely to experience problems with sleeping.

These session will discuss some of the common issues and strategies that can be used to support your child or young person.

There will be an opportunity to discuss your personal challenges around sleep and come up with an action plan.

EATING DIFFICULTIES

SEF areas

We ensure that staff understand how neurodiverse needs can impact a child's behaviour and ability to learn.

We are aware of the prevalence of sensitivity around food and eating for neurodiverse children and have strategies to support children with this.

Offer details

Food and eating can be a huge issue for autistic children.

Sensory issues and anxiety can lead to a person having a very restricted diet.

What can you do to help neurodiverse children with eating difficulties? In this 2 hour session, we will explore autism and food sensitivities.

The session covers -

Sensory sensitivities and their role in eating
Anxiety's role in eating.
The difficulties we usually see.
Strategies that work to help a child.
